

Southern California Bluebird Club

Monthly Meeting Minutes

Saturday, September 8, 2007
8:30 AM

I. Call to order

The monthly meeting of the *Southern California Bluebird Club* was called to order on Saturday, September 8, 2007, at *The Corner Bakery*, 13786-D Jamboree Road, Irvine, CA 92602.

II. Members Present

| | |
|--------------------------|----------------------|
| Dick Purvis | Howard Rathlesberger |
| Bob Franz | Alan Andreasen |
| Richard Brewster | Norm & Judi Franz |
| Sully Reallon | Christine Tisher |
| Charles Meyer | Peter Wetzal |
| Susan Bulger | Bill & Inge Wallace |
| Jerry & Sandra Nicholson | |

III. California Bluebird Recovery Program (CBRP)

More members reported logging into the CBRB web site and adding their 2007 totals. Reaction to the system is mixed. Everyone understands the need to keep records, but some members feel the amount of data that is requested is excessive. There is unanimity among the members to support Dick Blaine in his effort to automate the data collection to ease the burden of the paper process.

IV. Non-Profit Status

Mike Spohn missed the August meeting so he wanted to be sure all the members understood all the nuances of creating a non-profit. After a brief discussion, Mike agreed to research the option offered by the Ballona Project. He will report back next month.

V. North American Bluebird Society (NABS)

Mike Spohn advised our club was rejected by NABS as a formal affiliate because we do not have a non-profit status. This is one more reason to accelerate our efforts to get this done.

VI. Golf Course Project

Dick Purvis has been working on a short list of golf courses he would like to 'pilot' into our golf course project. He will collect a list of courses in Los Angeles and Orange County and distribute it to members who are interested in contacting the course superintendent.

VII. Next Meeting

The next meeting of the Southern Californian Bluebird Club will be Saturday, October 6, 2007. Same location.

VIII. Adjournment

Meeting adjourned at 9:35 AM.

Minutes submitted by: Michael G. Spohn
